**MONTROSE INDUSTRIES LTD.**

100-3031 Viking Way  
Richmond, BC V6V 1W1

Attn: Michael Kennedy [mkennedy@montroseproperties.com](mailto:mkennedy@montroseproperties.com)  
President & CEO

Dear Michael Kennedy:

**Re: Certificate of Compliance  
Part of Site ID 2404 – Building 1 (8011 Zylmans Way, Richmond, BC) Parts  
of PIDs 031-099-467, 031-099-475,  
15111 Williams Road, Richmond, BC**

Please find enclosed a Certificate of Compliance respecting the site referenced above.

In addition to the conditions set out in Schedule B of the Certificate of Compliance, please be advised of the following:

1. Information about the site will be included in the Site Registry established under the *Environmental Management Act*.
2. The provisions of this Certificate of Compliance are without prejudice to the right of the Director to make orders or impose requirements as the Director may deem necessary in accordance with applicable laws. Nothing in this Certificate of Compliance will in any way restrict or impair the Director's power in this regard.
3. A qualified environmental consultant should be available to identify, characterize and appropriately manage:
  - (a) any environmental media that may be contaminated, or
  - (b) soil which may exceed the standards triggering a Contaminated Soil Relocation Agreement set out in Part 8 of the Contaminated Sites Regulation

and which may be encountered during any future subsurface work at the site.

4. Groundwater wells that are no longer required must be properly decommissioned in accordance with the *Water Sustainability Act's* Groundwater Protection Regulation.

Issuance of this Certificate of Compliance is a decision that may be appealed under Part 8 of the *Environmental Management Act*.

If you require clarification of any aspect of this Certificate of Compliance, please contact ministry's Client Information Officer at the email address shown below.

Yours truly,

Lavinia Zanini  
for Director, *Environmental Management Act*

Enclosure

**CERTIFICATE OF COMPLIANCE**  
(Pursuant to Section 53 of the *Environmental Management Act*)

**THIS IS TO CERTIFY** that as of the date indicated below, the site identified in Schedule A of this Certificate of Compliance has been satisfactorily remediated to meet the applicable Contaminated Sites Regulation remediation standards and criteria.

This Certificate of Compliance is qualified by the requirements and conditions specified in Schedule B.

The substances for which remediation has been satisfactorily completed and for which this Certificate of Compliance is valid are listed in Schedule C.

I have issued this Certificate of Compliance based on a review of relevant information including the documents listed in Schedule D. I, however, make no representation or warranty as to the accuracy or completeness of that information.

A Director may rescind this Certificate of Compliance if requirements and conditions imposed in the Certificate of Compliance are not complied with or any fees payable under Part 4 of the Act or regulations are outstanding.

This Certificate of Compliance should not be construed as an assurance that there are no hazards present at the site.

August 17, 2022  
Date Issued

  
Lavinia Zanini, P.Geol.  
For Director, *Environmental Management Act*

## Schedule A

The site covered by this Certificate of Compliance is located at 15111 Williams Road Richmond, British Columbia and comprises a Building (8011 Zylmans Way) which is more particularly known and described as:

Part of

STRATA LOT 1 SECTION 22 BLOCK 4 NORTH RANGE 5 WEST NEW WESTMINSTER DISTRICT STRATA PLAN EPS6471 TOGETHER WITH AN INTEREST IN THE COMMON PROPERTY IN PROPORTION TO THE UNT ENTITLEMENT OF THE STRATA LOT AS SHOWN ON FORM V

STRATA LOT 2 SECTION 22 BLOCK 4 NORTH RANGE 5 WEST NEW WESTMINSTER DISTRICT STRATA PLAN EPS6471 TOGETHER WITH AN INTEREST IN THE COMMON PROPERTY IN PROPORTION TO THE UNT ENTITLEMENT OF THE STRATA LOT AS SHOWN ON FORM V

Which is described by the following metes and bounds:

Beginning at the SW corner of S.L.1. Section 22,  
Block 4 North, Range 5 West (P.o.C.), then  
S 5.019m to P1, then  
W 329.802m to P2, then  
N 00° 15' 01" E 275.303m to P3, then  
S 89° 46' 41.43" E 329.444m to P7, then  
S 269.010m to P.o.C.

Part of PIDs:           031-099-467  
                          031-099-475

The site contains part of a legal parcel depicted in an engineering drawing prepared by PGL Environmental Consultants, dated May 2022.

The approximate centre of the site using the NAD (North American Datum) 1983 convention is:

Latitude:    049°  09'  14.28"  
Longitude:  123°  03'  7.50"

## Schedule B

### Requirements and Conditions

WHEREAS Operational Certificate 4922 – issued under the provisions of the *Environmental Management Act* (“Act”) and in accordance with the Metro Vancouver Solid Waste Management Plan – governs management of solid waste at the site AND the Director, by letter dated November 30, 2016, provided a necessary release to the City of Richmond for issuance of the development permit for the site AND an Approval in Principle was issued September 22, 2017 for the site, TAKE NOTE THAT the following requirements and conditions are hereby imposed upon Montrose Industries Ltd. (“responsible person”):

1. Any conflict or inconsistency between this Certificate of Compliance and the requirements imposed in the Operational Certificate must be promptly identified by the responsible person in a written submission to the Director. This Certificate of Compliance is subject to ongoing compliance with the Operational Certificate, as amended.
2. Any changes in land, vapour, or water uses must be promptly identified by the responsible person in a written submission to the Director. An application for an amendment or new Certificate of Compliance may be necessary. The uses to which this condition applies are described in Schedule C and in the site investigation documents listed in Schedule D.
3. The principal risk controls which must be present or implemented and must be maintained at the site include the following:
  - (a) *Future buildings must have a soil vapour management system.*
  - (b) *The Vapour Management System operating below the current building slab must continue to operate as designed.*
  - (c) *Site groundwater must not be used as a drinking water source.*
  - (d) *The requirements of the Design, Operations and Closure Plan (DOCP) for the landfill must be adhered to.*
4. Performance verification must be undertaken as specified in the Performance Verification Plan listed in Schedule D or as specified in a modification of the plan approved by the Director.
5. Where required under a Performance Verification Plan for the site, records of performance verification actions and results must be maintained by the responsible person or their agent. The records must be available for inspection by the Director.
6. Institutional and engineering controls required in clause 3 of this Schedule must be undertaken as specified in the Operation and Maintenance Plan listed in Schedule D.

Date Issued

Lavinia Zanini

For Director, *Environmental Management Act*

7. The Director must be notified promptly by the person responsible for the site if performance verification actions indicate that any institutional and engineering controls required in clause 3 of this Schedule are not being met. The following information must be submitted to the Director with the notification, or as soon as practicable thereafter:
  - (a) The time period over which institutional and engineering controls did not meet the requirements of Schedule B;
  - (b) The nature of the problem;
  - (c) The temporary or permanent corrective measures implemented or to be implemented;
  - (d) An implementation schedule; and
  - (e) Supporting documentation.
8. A statement signed by an Approved Professional on whether the institutional and engineering controls required in clause 3 of this Schedule have been implemented and are being met must be submitted to the Director by March 31, every 2 years, with the first statement required in March 2024.
9. If requested by the Director, a report signed by an Approved Professional must be submitted for review to the Director and must include the following:
  - (a) An evaluation of the performance of the institutional and engineering controls;
  - (b) Recommendations for modification of any plans referenced above, along with supporting rationale;
  - (c) Interpretation of current and cumulative results of the performance verification actions undertaken according to the plan described in clause 4 above; and
  - (d) Supporting documentation.
10. As of the date of issue below, the Director does not require preparation and registration of a covenant under section 219 of the Land Title Act nor provision of financial security in connection with this Certificate of Compliance; however, the possible future need for measures and controls for the purposes specified in section 48 of the Contaminated Sites Regulation may be assessed by the Director from time to time

## Schedule C

### Substances and Uses

#### *Substances remediated in soil for industrial land soil use:*

##### To meet numerical remediation standards:

xylenes 1330-20-7

##### To meet risk-based remediation standards:

arsenic 7440-38-2  
benzene 71-43-2  
copper 7440-50-8  
molybdenum 7439-98-7  
nickel 7440-02-0  
toluene 108-88-3  
zinc 7440-66-6

#### *Substances remediated in vapour for industrial land vapour use:*

##### To meet numerical remediation standards:

ethylbenzene 100-41-4

##### To meet risk-based remediation standards:

benzene 71-43-2  
dibromoethane, 1,2- 106-93-4  
dichloropropane, 1,2- 78-87-5  
hexane 110-54-3  
naphthalene 91-20-3  
nitrobenzene 98-95-3  
trichloroethane, 1,1,2- 79-00-5  
trichloroethylene 79-01-6  
trimethylbenzene, 1,2,4- 95-63-6  
trimethylbenzene, 1,3,5- 108-67-8  
vinyl chloride 75-01-4  
VPHv N/A  
xylene total 1330-20-7
