CERTIFICATE OF COMPLIANCE
(Pursuant to Section 53 of the *Environmental Management Act*)

THIS IS TO CERTIFY that as of the date indicated below, the site identified in Schedule A of this Certificate of Compliance has been satisfactorily remediated to meet the applicable Contaminated Sites Regulation remediation standards and criteria.

This Certificate of Compliance is qualified by the requirements and conditions specified in Schedule B.

The substances for which remediation has been satisfactorily completed and for which this Certificate of Compliance is valid are listed in Schedule C.

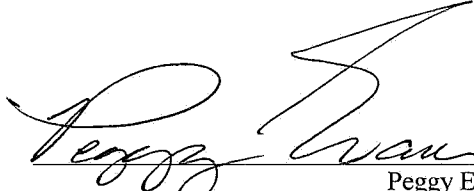

I have issued this Certificate of Compliance based on a review of relevant information including the documents listed in Schedule D. I, however, make no representation or warranty as to the accuracy or completeness of that information.

A Director may rescind this Certificate of Compliance if requirements and conditions imposed in the Certificate of Compliance are not complied with or any fees payable under Part 4 of the Act or regulations are outstanding.

This Certificate of Compliance should not be construed as an assurance that there are no hazards present at the site.

Schedule A

The site covered by this Certificate of Compliance is located at a portion of Switchmen Street, Vancouver, British Columbia which is more particularly known and described as:

All and singular that certain piece, parcel or tract of land and premises situate, lying and being in the New Westminster Land Title District in the Province of British Columbia and being composed of a portion of public road lying between Lots 353, 354 and 356, False Creek, Group 1, as shown on the registered survey Plan EPP46205, which said portion of public road may be more particularly described as follows:

Commencing at a point at the north easterly corner of the said Lot 354:
Thence north westerly $285^{\circ} 08' 42''$ for a distance of 62.797 metres more or less to a point on the northerly boundary of the said Lot 356;
Thence north easterly $15^{\circ} 08' 42''$ for a distance of 20.000 metres more or less;
Thence south easterly $105^{\circ} 08' 42''$ for a distance of 67.178 metres more or less;
Thence south westerly $199^{\circ} 56' 33''$ for a distance of 18.212 metres more or less to a point of curvature;
Thence southerly and westerly following a curve to the left of radius 315.645 metres for an arc length of 1.858 metres more or less;
Thence north westerly $285^{\circ} 08' 42''$ for a distance of 2.708 metres more or less to the point of commencement at the north easterly corner of the said Lot 354, and containing by admeasurement 1327 square metres more or less.

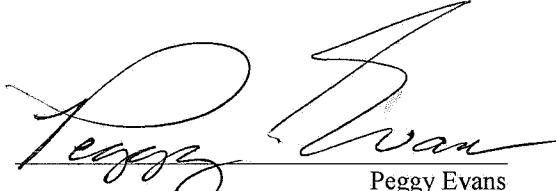

The site contains part of a legal parcel depicted in survey Plan EPP46205 prepared by D.J. Harris, a British Columbia Land Surveyor, dated June 3, 2015.

The approximate centre of the site using the NAD (North American Datum) 1983 convention is:

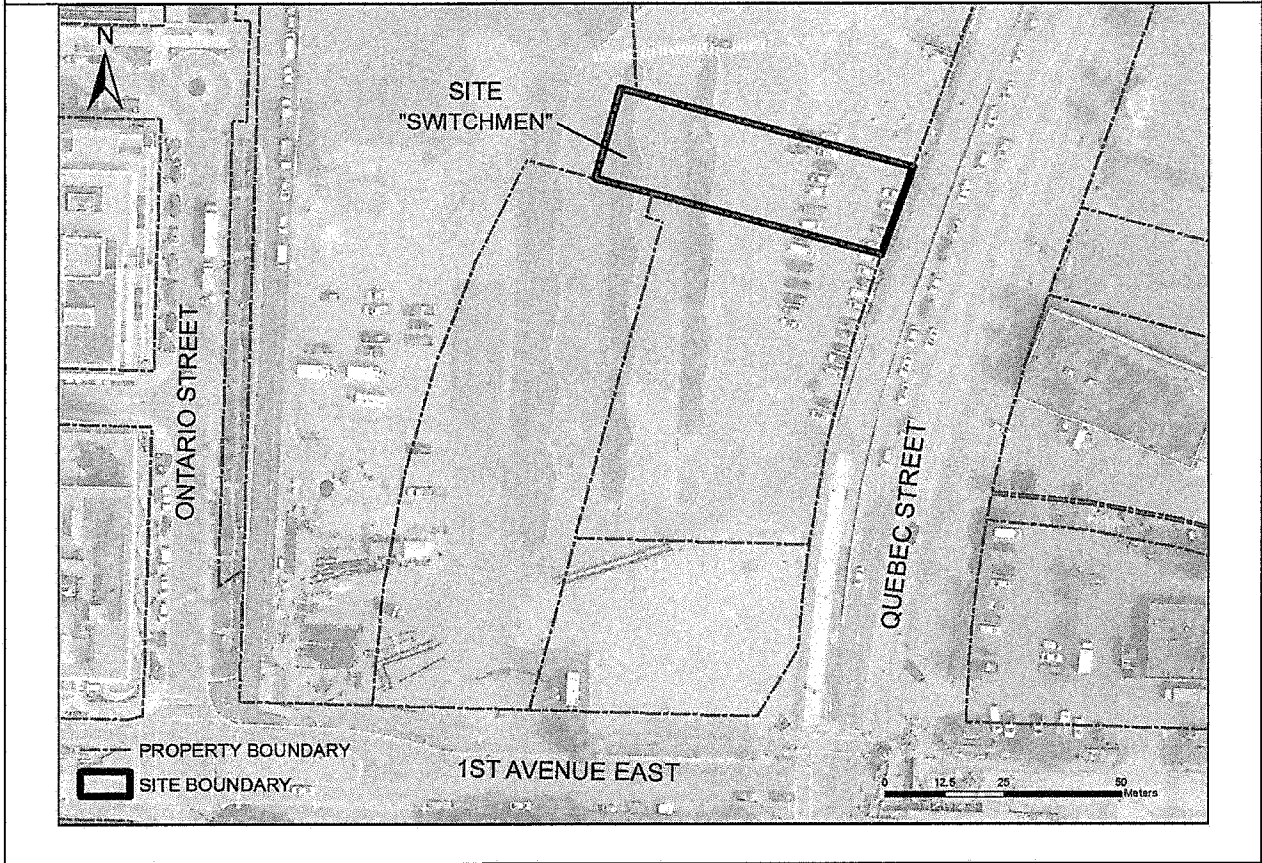

Latitude: $49^{\circ} 16' 16.80''$
Longitude: $123^{\circ} 06' 10.80''$

Schedule B

Requirements and Conditions

1. Any changes in land, vapour or water uses must be promptly identified by the responsible person in a written submission to the Director. An application for an amendment or new Certificate of Compliance may be necessary. The uses to which this condition applies are described in Schedule C and in the site investigation documents listed in Schedule D.

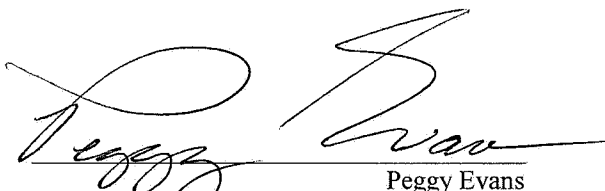

The documents listed in Schedule D indicate that vapour attenuation factors were applied to meet Contaminated Sites Regulation numerical standards at the site. These vapour attenuation factors were selected based on assumptions about the structures, locations and depths of buildings and trenches existing or expected at the site. These assumptions include the following:

- (a) The Site will remain a public roadway.

Any inconsistencies that arise between the structures, locations and depths of proposed or constructed buildings or trenches at the site and the range of structures, locations and depths of buildings or trenches assumed in the selection of vapour attenuation factors in the documents listed in Schedule D must be promptly identified by the responsible person in a written submission to the Director. An application for an amendment or new Certificate of Compliance may be necessary.
