Dear Mr.Driedger:

Re: Certificate of Compliance - MOTI Management Area Associated with 1108 Canyon Road (Highway 23 N), Nakusp, British Columbia

Please find enclosed a Certificate of Compliance respecting the site referenced above.

In addition to the conditions set out in Schedule B of the Certificate of Compliance, please be advised of the following:

1. Information about the site will be included in the Site Registry established under the *Environmental Management Act*.
2. The provisions of this Certificate of Compliance are without prejudice to the right of the Director to make orders or impose requirements as the Director may deem necessary in accordance with applicable laws. Nothing in this Certificate of Compliance will in any way restrict or impair the Director's power in this regard.
3. A qualified environmental consultant should be available to identify, characterize and appropriately manage:
 - (a) any environmental media that may be contaminated, or
 - (b) soil which may exceed the standards triggering a Contaminated Soil Relocation Agreement set out in section 40 of the Contaminated Sites Regulation and may be encountered during any future subsurface work at the site.
4. Groundwater wells that are no longer required must be properly decommissioned in accordance with the *Water Sustainability Act's* Groundwater Protection Regulation.

5. Please note that future site development may create preferential pathways for vapour. In this event, further assessment and remediation of vapour may be warranted.
6. Please note that the attached Certificate of Compliance does not address obligations of employers regarding worker health and safety under the *Workers Compensation Act* and Occupational Health and Safety Regulation. Development of site-specific work procedures in accordance with Workers' Compensation Board regulations may be warranted. Please direct related questions to Worksafe BC.

Issuance of this Certificate of Compliance is a decision that may be appealed under Part 8 of the *Environmental Management Act*.

If you require clarification of any aspect of this Certificate of Compliance, please contact the undersigned at james.plett@gov.bc.ca.

Yours truly,

James Plett
Senior Contaminated Sites Officer

CERTIFICATE OF COMPLIANCE
(Pursuant to Section 53 of the *Environmental Management Act*)

THIS IS TO CERTIFY that as of the date indicated below, the site identified in Schedule A of this Certificate of Compliance has been satisfactorily remediated to meet the applicable Contaminated Sites Regulation remediation standards.

This Certificate of Compliance is qualified by the requirements and conditions specified in Schedule B.

The substances for which remediation has been satisfactorily completed and for which this Certificate of Compliance is valid are listed in Schedule C.

I have issued this Certificate of Compliance based on a review of relevant information including the documents listed in Schedule D. I, however, make no representation or warranty as to the accuracy or completeness of that information.

A Director may rescind this Certificate of Compliance if requirements and conditions imposed in the Certificate of Compliance are not complied with or any fees payable under Part 4 of the Act or regulations are outstanding.

This Certificate of Compliance should not be construed as an assurance that there are no hazards present at the site.

The substances to which this Certificate of Compliance applies migrated to the site from a neighbouring source. It should not be assumed that this Certificate of Compliance certifies the remediation of all contaminants at the site.

For Director, *Environmental Management Act*

Schedule A

The management area covered by this Certificate of Compliance is located on a section of highway 23, Nakusp, British Columbia which is more particularly known and described as:

Metes and Bounds Description – MOTI MA

Commencing at the north corner of Lot 1, District Lot 397 Kootenay District Plan NEP 61024. Thence, at a bearing of 308 degrees 19 minutes 33 seconds a distance of 21.41 m. Thence, at a bearing of 38 degrees 19 minutes 33 seconds a distance of 30.90 m. Thence, at a bearing of 128 degrees 23 minutes 57 seconds a distance of 31.77 m. Thence, at a bearing of 117 degrees 7 minutes 52 seconds a distance of 13.63 m. Thence, at a bearing of 80 degrees 17 minutes 38 seconds a distance of 8.07 m. Thence, at a bearing of 131 degrees 6 minutes 12 seconds a distance of 21.16 m. Thence, at a bearing of 190 degrees 33 minutes 36 seconds a distance of 10.71 m. Thence, at a bearing of 132 degrees 22 minutes 15 seconds a distance of 11.50 m. Thence, at a bearing of 133 degrees 22 minutes 6 seconds a distance of 20.29 m. Thence, at a bearing of 134 degrees 16 minutes 3 seconds a distance of 33.55 m. Thence, at a bearing of 224 degrees 16 minutes 3 seconds a distance of 30.78 m. Thence, at a bearing of 314 degrees 14 minutes 43 seconds a distance of 30.36 m. Thence, at a bearing of 313 degrees 15 minutes 58 seconds a distance of 29.03 m. Thence, at a bearing of 311 degrees 48 minutes 39 seconds a distance of 14.51 m. Thence, at a bearing of 310 degrees 50 minutes 31 seconds a distance of 14.51 m. Thence, at a bearing of 309 degrees 52 minutes 19 seconds a distance of 14.51 m. Thence, at a bearing of 308 degrees 54 minutes 3 seconds a distance of 14.51 m to the point of commencement, and comprising an area of 4,602.75 m².

The site contains the portion of a lot depicted in an engineering drawing 130824-LET11 prepared by SNC-Lavalin Inc., on September 10, 2019.

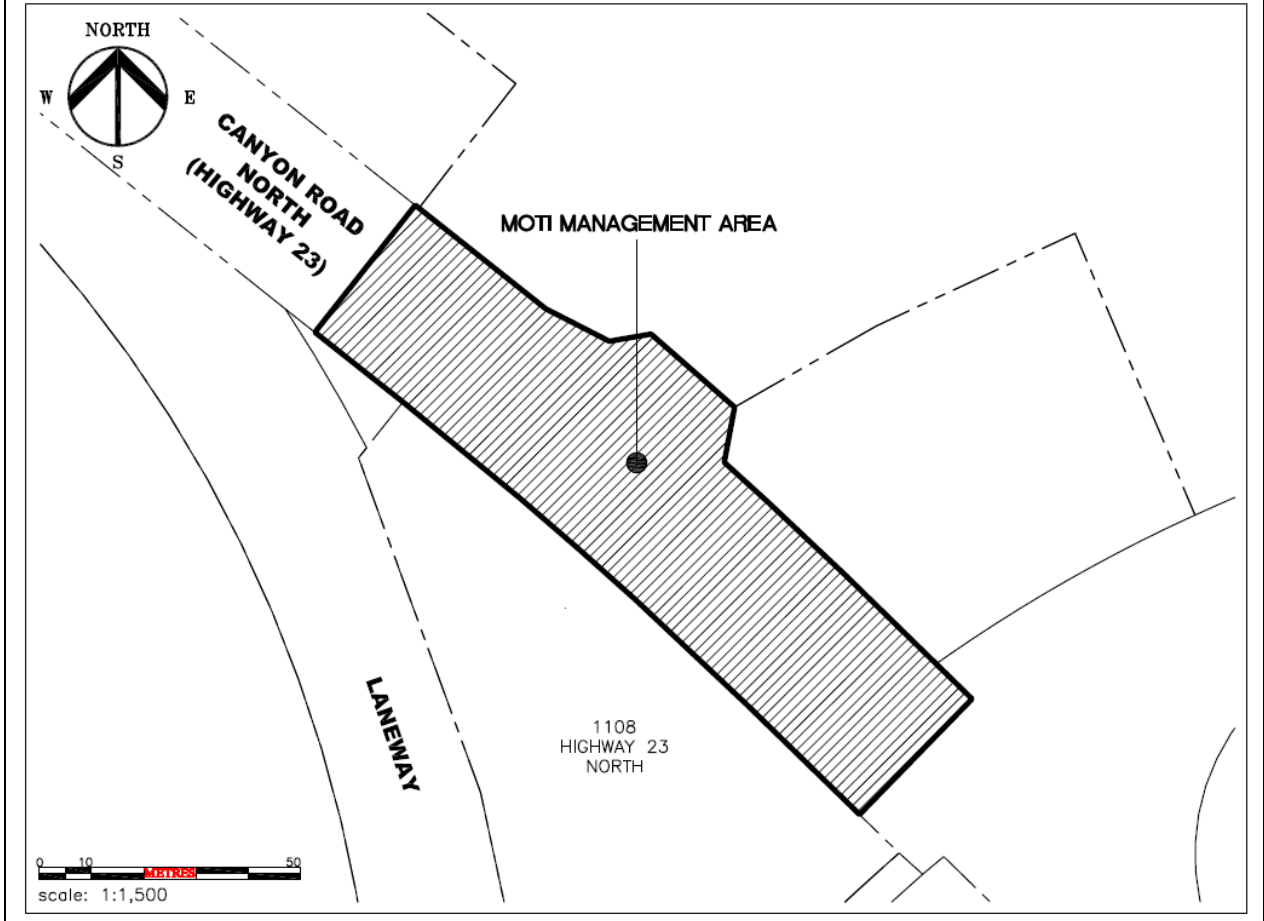

The approximate centre of the site using the NAD (North American Datum) 1983 convention is:

Latitude: 50° 14' 58.9"
Longitude: 117° 48' 40.1"

Schedule B

Requirements and Conditions

1. Any changes in land, vapour or water uses must be promptly identified by the responsible person in a written submission to the Director. An application for an amendment or new Certificate of Compliance may be necessary. The uses to which this condition applies are described in Schedule C and in the site investigation documents listed in Schedule D.

The documents listed in Schedule D indicate that vapour attenuation factors were applied to meet a Contaminated Sites Regulation numerical and or risk-based standards at site. These vapour attenuation factors were selected based on assumptions about the structures, locations and depths of buildings existing or expected at the site. These assumptions include the following:

(a) That the current roadway will remain.

Any inconsistencies that arise between the structures, locations and depths of proposed or constructed buildings the site and the range of structures, locations and depths of buildings assumed in the selection of vapour attenuation factors in the documents listed in Schedule D must be promptly identified by the responsible person in a written submission to the Director. An application for an amendment or new Certificate of Compliance may be necessary.

2. The principal risk controls which must be present or implemented and must be maintained at the site include the following:

(a) Groundwater from the site must not be used as a source of drinking water.

3. If requested by the Director, the responsible person must provide a signed statement indicating whether the principal risk controls listed in clause 2 of this Schedule have been and continue to be met. This may include providing a signed statement by an Approved Professional.

Schedule C

Substances and Uses

Substances remediated in soil for industrial land soil use:

To meet risk-based remediation standards:

Benzene (71-43-2)
Toluene (108-88-3)
VPHs (NA)
Xylenes (1330-20-7)

Substances remediated in water for drinking water use:

To meet numerical remediation standards:

VHW₆₋₁₀ (NA)

To meet risk-based remediation standards:

Benzene (71-43-2)
EPHW₁₀₋₁₉ (NA)
Ethylbenzene (100-41-4)
LNAPL (NA)
Methylnaphthalene, 2- (91-57-6)
Methylnaphthalene, 1- (90-12-0)
Naphthalene (91-20-3)
Tetraethyl Lead (78-00-2)
Toluene (108-88-3)
Trimethylbenzene, 1,3,5- (108-67-8)
Xylenes, total (1330-20-7)

Substances remediated in water for freshwater aquatic life water use:

To meet numerical remediation standards:

VHW₆₋₁₀ (NA)
VPHw (NA)

To meet risk-based remediation standards:

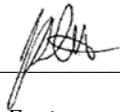

Benzene (71-43-2)
EPHW₁₀₋₁₉ (NA)
LEPHw (NA)
LNAPL (NA)
Naphthalene (91-20-3)
