### **Academic and Professional Involvement – 25% of total**

Please detail your academic and work experience related to engineering, geology, biology, chemistry, toxicology or agrology, and explain how it has furthered your interest and/or involvement in the science and management of contaminated sites investigation and remediation. See the scholarship selection criteria.

### **Area of Research – 40% of total**

Please provide a summary of your project or thesis topic highlighting its relevance to the investigation and remediation of contaminated sites. See the scholarship selection criteria.

## Academic Standing – 25% of total

Please forward an official copy of your most recent transcript.

## References Reports - 10% of total

Please identify your two references (one professional, one academic for your supervisor) and ask them to complete the reference form and send it directly to CSAP (see instructions, next page).

### Professional Reference:

Please provide the letter of reference (excluding relatives) that verifies your involvement in professional or community activities. Provide the person's full name, address, and contact telephone number below.

Name: Address:	_____
Business Phone:	_____
Relationship:	_____
	_____

### Academic Reference:

Please provide the letter of reference from your academic supervisor to verify your commitment, research/technical abilities and relevance of the research topic or project to contaminated sites. Provide the person's full name, address, and contact telephone number below.

Name: Address:	_____
Business Phone:	_____
Relationship:	_____
	_____

Please accept the above information in support of my scholarship application.

Date of Application: \_\_\_\_\_ Signature of Applicant: \_\_\_\_\_
