Chris Boys Parkland Corporation 2025 Willingdon Avenue, Suite 1000 Burnaby, BC V5C 0J3

Dear Chris Boys:

Re: Certificate of Compliance - 1470 Highway 93/95, Windermere, BC

Please find enclosed a Certificate of Compliance respecting the site referenced above.

In addition to the conditions set out in Schedule B of the Certificate of Compliance, please be advised of the following:

- 1. Information about the site will be included in the Site Registry established under the *Environmental Management Act*.
- 2. The provisions of this Certificate of Compliance are without prejudice to the right of the Director to make orders or impose requirements as the Director may deem necessary in accordance with applicable laws. Nothing in this Certificate of Compliance will in any way restrict or impair the Director's power in this regard.
- 3. A qualified environmental consultant should be available to identify, characterize and appropriately manage:
  - (a) any environmental media that may be contaminated, or
  - (b) removal of soil under the provisions of Part 8 of the Contaminated Sites Regulation

and may be encountered during any future work at the site.

4. Groundwater wells that are no longer required must be properly decommissioned in accordance with the *Water Sustainability Act's* Groundwater Protection Regulation.

- 5. Please note that future site development may create preferential pathways for vapour. In this event, further assessment and remediation of vapour may be warranted.
- 6. Please note that the attached Certificate of Compliance does not address obligations of employers regarding worker health and safety under the *Workers Compensation Act* and Occupational Health and Safety Regulation. Development of site-specific work procedures in accordance with Workers' Compensation Board regulations may be warranted. Please direct related questions to Worksafe BC.

Issuance of this Certificate of Compliance is a decision that may be appealed under Part 8 of the *Environmental Management Act*.

If you require clarification of any aspect of this Certificate of Compliance, please contact the undersigned at Kevin.Haines@gov.bc.ca.

Yours truly,

Kevin Haines

Senior Risk Assessment Officer

## CERTIFICATE OF COMPLIANCE

(Pursuant to Section 53 of the Environmental Management Act)

**THIS IS TO CERTIFY** that as of the date indicated below, the site identified in Schedule A of this Certificate of Compliance has been satisfactorily remediated to meet the applicable Contaminated Sites Regulation remediation standards and criteria.

This Certificate of Compliance is qualified by the requirements and conditions specified in Schedule B.

The substances for which remediation has been satisfactorily completed and for which this Certificate of Compliance is valid are listed in Schedule C.

I have issued this Certificate of Compliance based on a review of relevant information including the documents listed in Schedule D. I, however, make no representation or warranty as to the accuracy or completeness of that information.

A Director may rescind this Certificate of Compliance if requirements and conditions imposed in the Certificate of Compliance are not complied with or any fees payable under Part 4 of the Act or regulations are outstanding.

This Certificate of Compliance should not be construed as an assurance that there are no hazards present at the site.

v / .

#### Schedule A

The site covered by this Certificate of Compliance is located at 1470 Highway 93/95, Windermere, British Columbia which is more particularly known and described as:

Lot A District Lot 20 Kootenay District Plan NEP71825 PID 025-482-408

The approximate centre of the site using the NAD (North American Datum) 1983 convention is:

Latitude: 50° 28' 31.46" Longitude: 115° 59' 6.91"

The Management Area for the groundwater use restriction in Schedule B is defined as:

### Part of District Lot 1 Kootenay District Plan 2349

Commencing at a point southeasterly 166°01'39", 33.736 metres from the northwest corner of District Lot 1 Kootenay District Plan 2349;

Thence (1) Northeast 81°40'55", 31.415 metres;

Thence (2) Southeast 84°35'48", 37.034 metres;

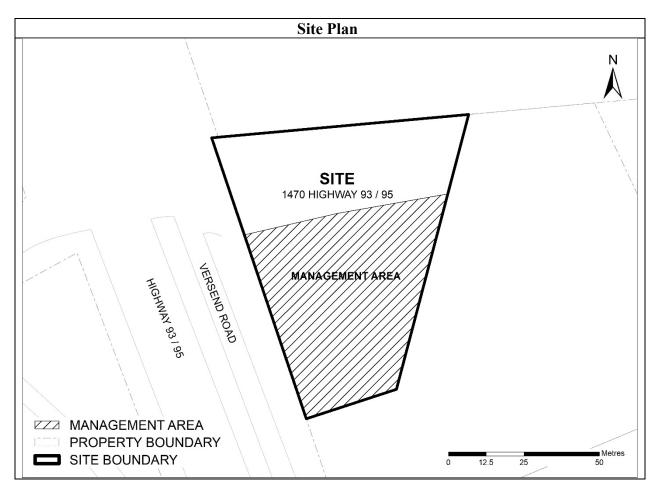

Thence (3) Southwest 199°22'06", 66.617 metres;

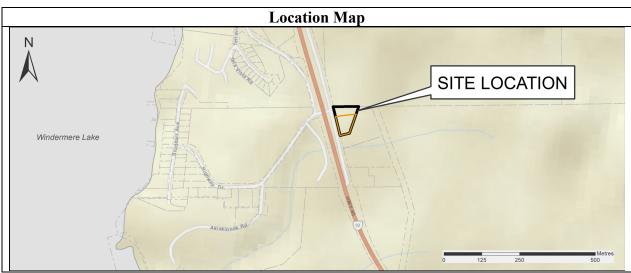

Thence (4) Southwest 256°33'38", 31.267 metres;

Thence (5) Northwest 346°01'39", 63.975 metres more or less to the commencement point; Containing 0.31 hectares (0.76 acres) more or less.

The management area is part of the legal parcel depicted in a sketch plan prepared by SLR Consulting (Canada) Ltd. on December 22, 2023.

### Schedule B

## **Requirements and Conditions**

1. Any changes in land, vapour, or water uses must be promptly identified by the responsible person in a written submission to the Director. An application for an amendment or new Certificate of Compliance may be necessary. The uses to which this condition applies are described in Schedule C and in the site investigation documents listed in Schedule D.

The documents listed in Schedule D indicate that vapour attenuation factors were applied to meet Contaminated Sites Regulation numerical standards at and adjacent to the site. These vapour attenuation factors were selected based on assumptions about the structures, locations and depths of buildings existing or expected at and adjacent to the site. These assumptions include the following:

(a) Building locations and foundation depths must remain in their current configuration.

Any inconsistencies that arise between the structures, locations and depths of proposed or constructed buildings at or adjacent to the site and the range of structures, locations and depths of buildings assumed in the selection of vapour attenuation factors in the documents listed in Schedule D must be promptly identified by the responsible person in a written submission to the Director. An application for an amendment or new Certificate of Compliance may be necessary.

- 2. The principal risk controls which must be present or implemented and must be maintained at the site include the following:
  - (a) Groundwater within the management area must not be used as a drinking water source.

### Schedule C

### **Substances and Uses**

## Substances remediated in soil for commercial land soil use:

### To meet risk-based remediation standards:

benzene	71-43-2
ethylbenzene	100-41-4
LEPHs	NA
naphthalene	91-20-3
toluene	108-88-3
VPHs	NA
xylenes	1330-20-7

## Substances remediated in vapour for commercial land vapour use:

## To meet numerical remediation standards:

benzene 71-43-2 VPHv NA

### Substances remediated in water for drinking water use:

## To meet numerical remediation standards:

ethylbenzene 100-41-4 naphthalene 91-20-3

### To meet risk-based remediation standards:

benzene 71-43-2 quinoline 91-22-5 toluene 108-88-3 xylenes, total 1330-20-7

## Substances remediated in water for freshwater aquatic life water use:

## To meet numerical remediation standards:

naphthalene 91-20-3 VPHw NA

## To meet risk-based remediation standards:

benzene 71-43-2
