Rod Semkiw
Big 9 Investments Inc.
330-1100 Homewood Road
Campbell River, BC, V9W 3N7

Dear Rod Semkiw:

Re: Certificate of Compliance - 1153 & 1185 Ironwood Street, Campbell River, BC

Please find enclosed a Certificate of Compliance respecting the site referenced above. This amended certificate of compliance supersedes the certificate issued on November 10, 2023.

In addition to the conditions set out in Schedule B of the Certificate of Compliance, please be advised of the following:

1. Information about the site will be included in the Site Registry established under the *Environmental Management Act*.
2. The provisions of this Certificate of Compliance are without prejudice to the right of the Director to make orders or impose requirements as the Director may deem necessary in accordance with applicable laws. Nothing in this Certificate of Compliance will in any way restrict or impair the Director's power in this regard.
3. A qualified environmental consultant should be available to identify, characterize and appropriately manage:
 - (a) any environmental media that may be contaminated, or
 - (b) removal of soil under the provisions of Part 8 of the Contaminated Sites Regulation

and may be encountered during any future work at the site.

4. Groundwater wells that are no longer required must be properly decommissioned in accordance with the *Water Sustainability Act's* Groundwater Protection Regulation.
5. Please note that the attached Certificate of Compliance does not address obligations of employers regarding worker health and safety under the *Workers Compensation Act* and Occupational Health and Safety Regulation. Development of site-specific work procedures in accordance with Workers' Compensation Board regulations may be warranted. Please direct related questions to Worksafe BC.

Issuance of this Certificate of Compliance is a decision that may be appealed under Part 8 of the *Environmental Management Act*.

If you require clarification of any aspect of this Certificate of Compliance, please contact the undersigned at Liliana.Jerade@gov.bc.ca

Yours truly,

Liliana Jerade
Senior Contaminated Sites Officer

CERTIFICATE OF COMPLIANCE
(Pursuant to Section 53 of the *Environmental Management Act*)

THIS IS TO CERTIFY that as of the date indicated below, the site identified in Schedule A of this Certificate of Compliance has been satisfactorily remediated to meet the applicable Contaminated Sites Regulation remediation standards and criteria.

This Certificate of Compliance is qualified by the requirements and conditions specified in Schedule B.

The substances for which remediation has been satisfactorily completed and for which this Certificate of Compliance is valid are listed in Schedule C.

I have issued this Certificate of Compliance based on a review of relevant information including the documents listed in Schedule D. I, however, make no representation or warranty as to the accuracy or completeness of that information.

A Director may rescind this Certificate of Compliance if requirements and conditions imposed in the Certificate of Compliance are not complied with or any fees payable under Part 4 of the Act or regulations are outstanding.

This Certificate of Compliance should not be construed as an assurance that there are no hazards present at the site.

Schedule B

Requirements and Conditions

1. Any changes in land, vapour, or water use must be promptly identified by the responsible person in a written submission to the Director. An application for an amendment or new Certificate of Compliance may be necessary. The uses to which this condition applies are described in Schedule C and in the site investigation documents listed in Schedule D.

The documents listed in Schedule D indicate that vapour attenuation factors were applied to meet Contaminated Sites Regulation numerical standards at the site. These vapour attenuation factors were selected based on assumptions about the structures, locations and depths of buildings expected at the site. These assumptions include the following:

(a) The ground level of the proposed high-density residential building will be a parkade

Any inconsistencies that arise between the structures, locations and depths of proposed buildings at the site and the range of structures, locations and depths of buildings assumed in the selection of vapour attenuation factors in the documents listed in Schedule D must be promptly identified by the responsible person in a written submission to the Director. An application for an amendment or new Certificate of Compliance may be necessary.

Schedule C

Substances and Uses

Substances remediated in soil for high density residential land soil use:

To meet numerical remediation standards:

anthracene	120-12-7
benzene	71-43-2
benzo(a)anthracene	56-55-3
benzo(a)pyrene	50-32-8
benzo(b+j)fluoranthene	205-99-2 & 205-82-3
benzo(k)fluoranthene	207-08-9
LEPHs	
phenanthrene	85-01-8
pyrene	129-00-0
toluene	108-88-3
zinc	7440-66-6

Substances remediated in vapour for parkade vapour use:

To meet numerical remediation standards:

naphthalene	91-20-3
-------------	---------

Substances remediated in water for freshwater aquatic life and marine and/or estuarine aquatic life water use:

To meet numerical remediation standards:

zinc	7440-66-6
------	-----------

Substances evaluated in water for drinking water use:

To meet local background concentrations:

iron	7439-89-6
------	-----------
